A party floor fight shaped up in the house, meanwhile, over the old AAA. The house agriculture com-mittee voted to recommend tabling of a resolution by Representative Taber (R. N. V.) asking for the names of benefit recipients of more than \$2. 000,000 and the amounts paid them.

The resolution must be acted on by the house, where Republicans planned to denounce what they have complained was payment of big amounts to large landowners at the expense of the little farmers. The agriculture commistee

Badly Damaged in Crash With Truck

School Superintendent and Wife Escape Injury on Way to St. Louis

Dr. R. O. Stoops, city superintendent of schools, accompanied by Mrs. Stoops, returned Thursday night from a trip to the National Educational Association convention in St Louis, after experiencing a narrow escape from injury in a traffic accident. It was while enroute to St. Louis that their Bulck sedan was struck and badly damaged by a large

automobile transport.

Two miles south of Carroliton as Dr. and Mrs. Stoops and John Payne, a high school instructor, were en-route to St. Louis, the transport crowded the Stoops car to the west side of the highway. A snow and ice bank some two feet high at the side of the pavement prevented Dr. Stoops from twisting the car off the pave-ment. As a result, the car was pinbetween the transport and snow bank.

The left fender and wheels of the Buick were sheered off by the impact of the heavily loaded transport, which FG FT PF TP was hauling four cars. Both tires on the Stoops car were torn from the wheels of the left side.

Fortunately, the Jacksonville travelers escaped injury aside from being shaken up. They were picked up by Lawrence Sibert of this city and taken to the Jefferson hotel in St. Louis. A wrecker was sent from Jacksonville and brought the damaged sedan

Profitable Produce

Raising Chickens for early marketing is usually a profitable venture. True, it requires some work, but it pays. To get the best out of it, an early start should be made.

Maintaining flocks for the production of eggs alprofitable, and this too requires care and work in r to produce the egg that brings the better prices.
